

Update instructions to update from 3.29 to 3.30

make sure to backup all of your files and your database before updating/replacing
AND don't forget to save at least the \$config→secretKey

to get more information what the changes are please use something like WinMerge <http://winmerge.org> to compare your existing version with the new Version - so you could update "modified by you" files easier.

**Please take care when copying and pasting,
maybe some wrong characters could be inserted
i.e. – instead of -**

1. Please replace the following files

index.php	includes/header.php
functions.ajax.php	includes/admin/settings-shorturls.php
classes/sfs.class.php	js/sfs.min.js

The current unminified versions of js/sfs.min.js and css/sfs.min.css can be found in their directories (you'll find it)

2. Language Updates

these language files were modified:

lang/de-Du/main.lang.php
lang/de-Sie/main.lang.php
lang/en/main.lang.php

new Keys:

```
info_js_needed
```

3. Update the database

upload and run **update_3.29_to_3.30.php**

4. Update process finished

you're done
